

REMARKS

As pointed out in the Office Action, the Applicant will overcome the Template reference provided that the Applicant's amendments specify that the source code is generated independently of the modeling language. All the Independent Claims are currently amended in response to the Examiner's courteous comment and now call for independence between the modeling language (i.e., the graphical representation of the source code elements) and the source code. Accordingly, it is now believed that the pending claims overcome the rejections. Therefore, allowance of all pending claims is respectfully requested. If unresolved issues remain, the Examiner is invited to telephone applicant's attorney at the number below.

Respectfully submitted,

Howard A. MacCord, Jr.
